

THERE'S  
NO  
SUBSTITUTE

It Is Written  
That Every  
Man  
Shall Reap  
Just What He  
Sows

You In The Church  
The Church In You—  
Form a combination for good. We  
should attend church regularly.  
Every man, woman and child  
needs the influence of the  
CHURCH. Be Faithful! Be  
a Churchman!

How frequently we hear it said, "This is just as good as the real thing!" Maybe so in lesser matters, such as particular foods or clothing or brands of aspirin. But in the larger realm of character and morality and religion, it can never be true.

There is no substitute for integrity of soul. One cannot afford to be almost honest or fairly truthful or half-way dependable. Honesty and genuineness of life have no substitutes. There can be no substitute for genuine friendliness; in fact, a "substitute" is a fraud here... it is hypocrisy and treason to a man's better self. There is no substitute for brotherliness. One is a neighbor or he is not.

In a man's relation to his God, there is a supreme demand for the genuine and the true. Reverence and gratitude and devotion to a man's highest friend must be "real." The man who bows in the presence of the all-loving and all-seeing God must be himself, or he is a caricature like the Pharisee on the street corner... praying to be seen by his fellow men. The respect of men and the favor of God and a man's own sense of integrity... these can have no substitute and no rival.

**CHRISTIAN**  
Edmond Penick, pastor

**FIRST PRESBYTERIAN**  
L. T. Lawrence, D. D. Minister  
The U. S. Weather Bureau office  
at Little Rock said a cool air  
mass was expected to start mov-  
ing in from the north late tomor-  
row, and would drop the tempera-  
ture somewhat in northwest Arkans-  
as by Saturday afternoon.  
The bureau added that the drop  
would spread to the rest of the  
state later.  
No rain was forecast.  
The U. S. Weather Bureau mer-  
cury readings ranged from 54 de-  
grees at Fayetteville to 70 at Texarkana.  
High readings in the 90s  
were forecast for this afternoon.  
The temperature rose to the 90s  
throughout Arkansas yesterday  
afternoon.  
High readings in the mid 90s  
were forecast for this afternoon.

56TH YEAR, VOL. 56 — NO. 288

Hurricane Ione  
Heads Toward  
the U.S. Coast

MIAMI, Fla. (AP) — Hurricane Ione spun toward the U. S. main-  
land today and threatened to strike  
somewhere between Florida and  
North Carolina late Sunday.  
At 5 a. m. EST Ione was 500  
miles east of Miami and was mov-  
ing along with winds up to 100  
m.p.h. She was expected to in-  
crease in both size and intensity,  
but to make her way toward the  
mainland at the slower pace of 8  
to 10 m.p.h.  
Her pre-dawn progress was about  
12 m.p.h. which was about two  
times slower than her progress last  
night.  
Hurricane force winds blew out  
ward 40 miles from her furious  
center, and gales howled to the  
north and south 225 miles in  
the northern semicircle and 120  
miles in the southern.

Ione's northwesterly direction  
was expected to continue. This  
would take her to the north of  
Miami, but the Western Bureau  
said Ione's movement had been so  
erratic it was difficult to predict a  
definite path at this time.  
For several hours Ione had fol-  
lowed the identical path taken by  
Hurricane Connie five weeks ago.  
Connie crashed ashore on the  
North Carolina coast and ripped  
through Virginia, Maryland and  
Pennsylvania with powerful winds  
and torrential rains, causing heavy  
damage.

Searchers  
Still Trying  
to Find Pair

GEORGETOWN, Colo. (UP) —  
Searchers continued efforts today  
to rescue two Kansas men lost in  
a 6,000-foot abandoned mine shaft.  
But both are believed dead.  
Clara Dew, 32, and Melvin Le-  
Blow, 45, both uranium prospectors  
from Wyss, Kan., had only a  
five-hour supply of oxygen when they  
left a companion at the 1,500-  
foot level Thursday to investigate  
the most remote depths of the 40-  
year-old shaft. It was considered  
unlikely they could have survived  
without an additional supply of  
oxygen.

A companion, Ernest Stubbfield, 32,  
also of Wyss, returned to the  
surface and brought help when his  
hand sawed his way out of the  
shaft.

Thursday night a rescue crew of  
miners carried a compressed air  
hose 400 feet into the mine, but  
had to turn back for lack of oxy-  
gen.

The state and Federal Bureau of  
Mines later sent in an electric  
generator and air compressor with  
a 12-inch pipe to clear the air from  
the shaft. They had to quit work  
late Friday at 4:50 because their  
pipe supply was exhausted.

Miners received more pipe for a  
continuing attempt today.  
Dew's brother, Charles, flew in  
from Kansas City yesterday and  
asked if any miners would be  
"willing to forget the book" and  
making a rescue shaft deep into the  
hole.

Howard Bird, regional chief  
of the Bureau of Mines, said he  
saw sample taken inside the mine  
indicated no oxygen was avail-  
able. He said anyone who attempted  
the dash would meet almost cer-  
tain death.

"The trouble with you fellows is  
that you're acting like they were  
dead and you're just doing a sal-  
vage operation," Charles Dew  
said.

Stubbfield said he and the two  
lost men had been exploring the  
mine most of the week with Ken-  
nedy, E. H. Haskett, 50, a geologist.  
They found "hot" uranium rock  
with Geiger counters. Stubbfield  
said, and the three decided to con-  
tinue the exploration with oxygen  
equipment. They had to go for help  
if they failed to return within a  
reasonable amount of time.

Board of Review  
for Local Scouts  
Set Tuesday

A Boy Scout Board of Review  
will be held Tuesday, September  
22, at 4 p. m. at the Snyder Hotel.  
All scouts who have qualified  
for the ranks of second, first Star  
or life and Merit badges must ap-  
pear before the Board of Review  
in order to be eligible to receive  
their awards at the next Count of  
Honor.

home.

In the latest letter, Tennessee  
wrote that he would be "returning  
to the Far East in 1953 in an effort  
to see her face-to-face and per-  
suade him to come home."  
Mrs. Howie received another let-  
ter from her son three days ago,  
saying he had decided to come  
home.

Peron Forces  
Claim Revolt  
Is Put Down

By SAM SUMMERLIN  
BUENOS AIRES (AP) — Forces  
loyal to President Juan D. Peron  
struck back savagely today in an  
attempt to put down the bloody re-  
bellion of his nine-year reign.  
The fighting erupted yesterday  
on land, sea and in the air and  
swirled swiftly to scattered parts  
of the country.  
After some 24 hours of seaway  
action, the loyalist forces ap-  
peared to have grabbed the upper  
hand. But it was still too early to  
forecast the outcome.

The revolt was launched by re-  
grouped and augmented dissident  
of the armed forces who touched  
off the unsuccessful attempt to  
overthrow Peron June 16.

Last night the rebels claimed  
they were in control of much of  
south Argentina and the strategic  
Cordoba Province in the center of  
the country about 400 miles north-  
west of Buenos Aires.

Lashing out in the pre-dawn  
hours today, troops loyal to Peron  
crushed two rebel strongholds. A  
government radio broadcast said:  
"Important news: a 10,000-man  
force, which advancing a sufficient  
rebel centers continue to progress  
toward the support of military avia-  
tion."

Peron, who has been since  
prisoner 4 1/2 years.  
Mrs. Rigby inquired quickly  
about her son's health. She said  
he told her he was feeling fine  
and "see you soon."

Before hearing directly from her  
son, Mrs. Rigby had expressed joy  
when informed that Father  
Rigby was among the first of 22  
American civilians the Reds have  
promised to release.

"That is wonderful," Mrs.  
Rigby said. "It has been such a  
long time. Such a long time."  
Mrs. Rigby, who lives with her  
daughter Mrs. Mary Ann Hanley  
in south Chicago, was the first of  
22 Roman Catholic Church of the  
Annunciation after hearing of her  
son's release.

She was accompanied to the  
church by her daughter, the  
church pastor, the Rev. Philip  
Phibbin and newspaper photog-  
raphers.

"She was really excited," said  
her son-in-law James P. Hanley.  
"She won't sleep any more to-  
night. She'll be up all night long  
thinking of this day for a long, long  
time."

Mrs. Rigby twice flew to Wash-  
ington to ask that everything pos-  
sible be done to obtain the release  
of her son and other imprisoned  
Americans.

Father Rigby, who is 54, had  
been dean of the Roman Catholic  
Parish of St. Ignace in Chicago,  
China, where he had been since  
1946. He was arrested on spy and  
sabotage charges in July 1951.

"Skilled and seasoned politicians  
obviously have been in grave  
doubt as to how they should grasp  
the situation," he said.  
"Do you have any statement  
make before getting into the  
game?"

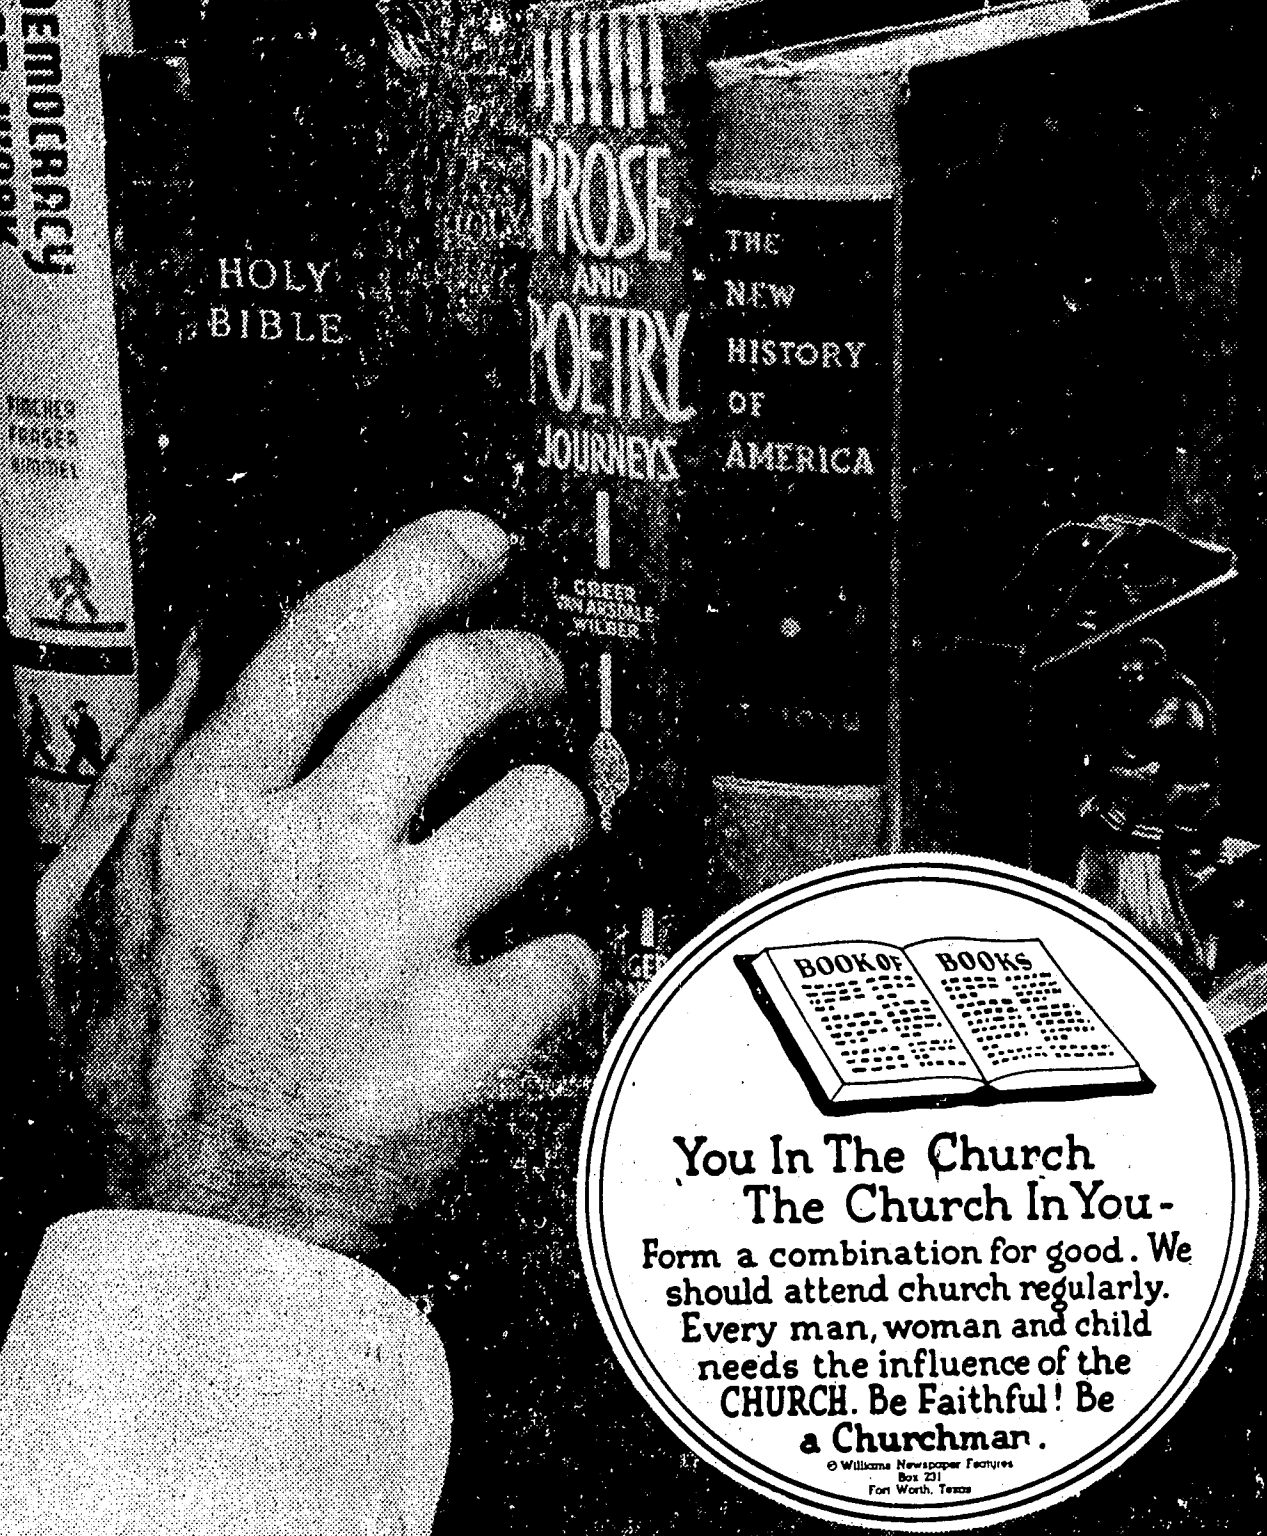

"Yes, could I get into the  
game?" replied Sen. Martin.  
"Absolutely not," declared  
judge as he sentenced the lawyer  
to six months in jail. He was  
ordered to be in jail yesterday  
for assault to commit  
murder.

EDEN ILL. — Prime Minister  
Eden was reported by his doctors  
today to be making good progress  
after a bout with influenza. They  
ordered him to bed yesterday af-  
ter he had been in bed for several  
days. The country home of

THERE'S  
NO  
SUBSTITUTE

It Is Written  
That Every  
Man  
Shall Reap  
Just What He  
Sows

You In The Church  
The Church In You—  
Form a combination for good. We  
should attend church regularly.  
Every man, woman and child  
needs the influence of the  
CHURCH. Be Faithful! Be  
a Churchman!

How frequently we hear it said, "This is just as good as the real thing!" Maybe so in lesser matters, such as particular foods or clothing or brands of aspirin. But in the larger realm of character and morality and religion, it can never be true.

There is no substitute for integrity of soul. One cannot afford to be almost honest or fairly truthful or half-way dependable. Honesty and genuineness of life have no substitutes. There can be no substitute for genuine friendliness; in fact, a "substitute" is a fraud here... it is hypocrisy and treason to a man's better self. There is no substitute for brotherliness. One is a neighbor or he is not.

In a man's relation to his God, there is a supreme demand for the genuine and the true. Reverence and gratitude and devotion to a man's highest friend must be "real." The man who bows in the presence of the all-loving and all-seeing God must be himself, or he is a caricature like the Pharisee on the street corner... praying to be seen by his fellow men. The respect of men and the favor of God and a man's own sense of integrity... these can have no substitute and no rival.

Hurricane Ione  
Heads Toward  
the U.S. Coast

MIAMI, Fla. (AP)—Hurricane Ione spun toward the U. S. main-  
land today and threatened to strike  
somewhere between Florida and  
North Carolina late Sunday.  
At 5 a. m. EST Ione was 500  
miles east of Miami and was roar-  
ing along with winds up to 120  
m.p.h. She was expected to in-  
crease in both size and intensity,  
but to make her way toward the  
mainland at the slower pace of 8  
to 10 m.p.h.  
Her pre-dawn progress was about  
12 m.p.h. which was about two  
times slower than her previous last  
night.  
Hurricane force winds blew out  
ward 40 miles from her furious  
center, and gales howled to the  
north and south 225 miles in  
the northern semicircle and 120  
miles in the southern.  
Ione's northwesterly direction  
was expected to continue. This  
would take her to the north of  
Miami, but the Western Bureau  
said Ione's movement had been so  
erratic it was difficult to predict a  
definite path at this time.  
For several hours Ione had fol-  
lowed the identical path taken by  
Hurricane Connie five weeks ago.  
Connie crashed ashore on the  
North Carolina coast and ripped  
through Virginia, Maryland and  
Pennsylvania with powerful winds  
and torrential rains, causing heavy  
damage.

Although owner of the largest  
health and accident insurance  
agency in the world, Earl Brink  
has found time to visit 103 coun-  
tries and in 17 years has paced off  
424,000 miles and shot a foot of  
colored film for every mile travel-  
ing.  
He describes Portugal as the  
"most overlooked country in the  
world" and a country that will  
become a must in every travel-  
er's book after seeing his film  
which includes the most beautiful  
landscapes in the world, Madeira.  
In Portugal he photographed  
ancient walled towns and modern  
cities, dancing girls and rugged  
cliffs, windmills and fisherfolk,  
religious festival, and genuine and  
the basket weavers of Madeira  
and many other interesting  
things.  
A treat is in store for members  
of the club.

Searchers  
Still Trying  
to Find Pair

GEORGETOWN, Colo. (UP)—  
Searchers continued efforts today  
to rescue two Kansas men lost in  
a 6,000-foot abandoned mine shaft  
but both are believed dead.  
Clara Dew, 32, and Melvin Le-  
Blow, 45, both uranium prospectors  
from Wyss, Kan., had only a  
five-hour supply of oxygen when they  
left a companion at the 1,500-  
foot level Thursday to investigate  
the most remote depths of the 40-  
year-old shaft. It was considered  
unlikely they could have survived  
without an additional supply of  
oxygen.  
A companion, Ernest Stubbfield, 32,  
also of Wyss, returned to the  
surface and brought help when his  
handy saw cut through the cable.  
Thursday night a rescue crew of  
miners carried a compressed air  
hose 400 feet into the mine, but  
had to turn back for lack of oxy-  
gen.  
The state and Federal Bureau of  
Mines later sent in an electric  
generator and air compressor with  
a 12-inch pipe to clear the bad air  
from the shaft. They had to quit  
work late Friday at 450 feet be-  
cause their pipe supply was ex-  
hausted.  
Miners received more pipe for  
a continued attempt today.  
Dew's brother, Charles, flew in  
from Kansas City yesterday and  
asked if any miners would be  
"willing to forget the book" and  
making a rescue shaft deep into the  
hole.  
Howard Bird, regional chief  
of the Bureau of Mines, said the  
air sample taken inside the mine  
indicated no oxygen was availa-  
ble. He said anyone who attempted  
the dash would meet almost cer-  
tain death.  
"The trouble with you fellows is  
that you're acting like they were  
dead and you're just doing a sal-  
vage operation," Charles Dew  
said.  
Stubbfield said he and the two  
lost men had been exploring the  
mine most of the week with Ken-  
nedy, E. H. Haskett, 50, a geologist.  
They found "hot" uranium rock  
with Geiger counters. Stubbfield  
said, and the three decided to con-  
tinue the exploration with oxygen  
equipment. They had to go for help  
if they failed to return within a  
reasonable amount of time.

lost men had been exploring the  
mine most of the week with Ken-  
nedy, E. H. Haskett, 50, a geologist.  
They found "hot" uranium rock  
with Geiger counters. Stubbfield  
said, and the three decided to con-  
tinue the exploration with oxygen  
equipment. They had to go for help  
if they failed to return within a  
reasonable amount of time.

Stubbfield said he and the two  
lost men had been exploring the  
mine most of the week with Ken-  
nedy, E. H. Haskett, 50, a geologist.

NOT TOO HIGH, YET—This is the KXV Convertiplane, according to a height of 30 feet in its  
first flight. The Bell Aircraft Corporation plane was tested at Fort Worth, Tex. Twin rotors of  
wings take it up or down, vertically, like a helicopter. They can be turned to a horizontal  
position to pull the plane forward in conventional flight. It can carry four persons or two litter  
patients, medical attendant and pilot, or an equivalent weight in cargo.

Members of the local Explorers  
club will be taken on a trip through  
Portugal Monday night, September  
19, when Earl Brink, photographer,  
voyager and narrator, comes  
in over to be eligible to receive  
their awards at the next Count of  
Honor.

Haselk Jones, Advancement  
chairman says that all Scouts  
must have their scores on cards  
signed by their Scoutmaster. The  
board appearing before the Board of  
Review. Mr. Jones also an-  
nounces that the Count of Honor  
will be held Monday Oct. 10.

Peron Forces  
Claim Revolt  
Is Put Down

By SAM SUMMERLIN

BUENOS AIRES (AP)—Forces  
loyal to President Juan D. Peron  
struck back savagely today in an  
attempt to put down the bloody re-  
bellion of his nine-year reign.  
The fighting erupted yesterday  
on land, sea and in the air and  
swirled swiftly to scattered parts  
of the country.  
After some 24 hours of seaway  
action, the loyalist forces ap-  
peared to have grabbed the upper  
hand. But it was still too early to  
forecast the outcome.  
The revolt was launched by re-  
grouped and augmented dissident  
of the armed forces who touched  
off the unsuccessful attempt to  
overthrow Peron June 16.

Last night the rebels claimed  
they were in control of much of  
south Argentina and the strategic  
Cordoba Province in the center of  
the country about 400 miles north-  
west of Buenos Aires.  
Lashing out in the predawn  
hours today, troops loyal to Peron  
crushed two rebel strongholds. A  
government radio broadcast said:  
"Important news: a 10,000-man  
force, which advancing a sufficient  
rebel centers continue to progress  
in the support of military avia-  
tion."

Following the service the  
inspected the

AMERICA

You In The Church  
The Church In You—  
Form a combination for good. We  
should attend church regularly.  
Every man, woman and child  
needs the influence of the  
CHURCH. Be Faithful! Be  
a Churchman!

How frequently we hear it said, "This is just as good as the real thing!" Maybe so in lesser matters, such as particular foods or clothing or brands of aspirin. But in the larger realm of character and morality and religion, it can never be true.

There is no substitute for integrity of soul. One cannot afford to be almost honest or fairly truthful or half-way dependable. Honesty and genuineness of life have no substitutes. There can be no substitute for genuine friendliness; in fact, a "substitute" is a fraud here... it is hypocrisy and treason to a man's better self. There is no substitute for brotherliness. One is a neighbor or he is not.

In a man's relation to his God, there is a supreme demand for the genuine and the true. Reverence and gratitude and devotion to a man's highest friend must be "real." The man who bows in the presence of the all-loving and all-seeing God must be himself, or he is a caricature like the Pharisee on the street corner... praying to be seen by his fellow men. The respect of men and the favor of God and a man's own sense of integrity... these can have no substitute and no rival.

**FIRST PRESBYTERIAN**  
L. T. Lawrence, D. D. Minister  
The U. S. Weather Bureau office  
at Little Rock said a cool air  
mass was expected to start mov-  
ing in from the north late tomor-  
row, and would drop the tempera-  
ture somewhat in northwest Arkans-  
as by Saturday afternoon.  
The bureau added that the drop  
would spread to the rest of the  
state later.  
No rain was forecast.  
The U. S. Weather Bureau mer-  
cury readings ranged from 54 de-  
grees at Fayetteville to 70 at Texarkana.  
High readings in the 90s  
were forecast for this afternoon.  
The temperature rose to the 90s  
throughout Arkansas yesterday  
afternoon.  
High readings in the mid 90s  
were forecast for this afternoon.  
The temperature rose to the 90s  
throughout Arkansas yesterday  
afternoon.  
High readings in the mid 90s  
were forecast for this afternoon.

**MEAT PLANT**  
The trouble with you fellows  
is that you're acting like they were  
dead and you're just doing a sal-  
vage operation," Charles Dev  
said.  
Stubblefield said he and the two  
lost men had been exploring the  
mine most of the week with Ken-  
nedy, E. H. Hixson, a geologist.  
They found "hot" uranium rock  
with Geiger counters. Stubblefield  
said, and the three decided to con-  
tinue the exploration with oxygen  
equipment and to go to the help  
if they failed to return within a  
reasonable amount of time.

**Is Promised  
Cooler Weekend**  
By The Associated Press  
Arkansas may get slightly cool-  
er this weekend.  
The U. S. Weather Bureau office  
at Little Rock said a cool air  
mass was expected to start mov-  
ing in from the north late tomor-  
row, and would drop the tempera-  
ture somewhat in northwest Arkans-  
as by Saturday afternoon.  
The bureau added that the drop  
would spread to the rest of the  
state later.  
No rain was forecast.  
The U. S. Weather Bureau mer-  
cury readings ranged from 54 de-  
grees at Fayetteville to 70 at Texarkana.  
High readings in the 90s  
were forecast for this afternoon.  
The temperature rose to the 90s  
throughout Arkansas yesterday  
afternoon.  
High readings in the mid 90s  
were forecast for this afternoon.

56TH YEAR, VOL. 56 — NO. 288

Hurricane Ione  
Heads Toward  
the U.S. Coast

MIAMI, Fla. (AP) — Hurricane Ione spun toward the U. S. main-  
land today and threatened to strike  
somewhere between Florida and  
North Carolina late Sunday.  
At 5 a. m. EST Ione was 500  
miles east of Miami and was mov-  
ing along with winds up to 100  
m.p.h. She was expected to in-  
crease in both size and intensity,  
but to make her way toward the  
mainland at the slower pace of 8  
to 10 m.p.h.  
Her pre-dawn progress was about  
12 m.p.h. which was about two  
miles slower than her progress last  
night.  
Hurricane force winds blew out  
ward 40 miles from her furious  
center, and gales howled to the  
north and south 225 miles in  
the northern semicircle and 120  
miles in the southern.  
Ione's northwesterly direction  
was expected to continue. This  
would take her to the north of  
Miami, but the Western Bureau  
said Ione's movement had been so  
erratic it was difficult to predict a  
definite path at this time.  
For several hours Ione had fol-  
lowed the identical path taken by  
Hurricane Connie five weeks ago.  
Connie crashed ashore on the  
North Carolina coast and ripped  
through Virginia, Maryland and  
Pennsylvania with powerful winds  
and torrential rains, causing heavy  
damage.

Although owner of the largest  
health and accident insurance  
agency in the world, Earl Brink  
has found time to visit 103 coun-  
tries and in 17 years has paced off  
424,000 miles and shot a foot of  
colored film for every mile travel-  
ed.  
He describes Portugal as the  
"most overlooked country in the  
world" and a country that will  
become a must in every travel-  
er's book after seeing his film  
which includes the most beautiful  
landscapes in the world, Madeira.  
In Portugal he photographed  
ancient walled towns and modern  
cities, dancing girls and rugged  
cliffs, windmills and fisherfolk,  
religious festival, and genuine and  
the basket weavers of Madeira  
and many other interesting  
things.  
A treat is in store for members  
of the club.

Searchers  
Still Trying  
to Find Pair

GEORGETOWN, Colo. (UP) —  
Searchers continued efforts today  
to rescue two Kansas men lost in  
a 6,000-foot abandoned mine shaft  
but both are believed dead.  
Clara Dev, 32, and Melvin Le-  
Blow, 45, both uranium prospectors  
from Wyss, Kan., had only a  
five-hour supply of oxygen when  
they left a companion at the 1,500-  
foot level Thursday to investigate  
the most remote depths of the 40-  
year-old shaft. It was considered  
unlikely they could have survived  
without an additional supply of  
oxygen.  
A companion, Ernest Stubblefield,  
32, also of Wyss, returned to the  
surface and brought help when his  
handy saw failed to cut through  
the shaft.

Thursday night a rescue crew of  
miners carried a compressed air  
hose 400 feet into the mine, but  
had to turn back for lack of oxy-  
gen.  
The state and Federal Bureau of  
Mines later sent in an electric  
generator and air compressor with  
a 12-inch pipe to clear the air from  
the shaft. They had to quit work  
late Friday at 4:50 because their  
pipe supply was exhausted.  
Mines received more pipe for a  
continued attempt today.  
Dev's brother, Charles, flew in  
from Kansas City yesterday and  
asked if any miners would be  
"willing to forget the book" and  
making a rescue shaft deep into the  
hole.  
Howard Bird, regional chief  
of the Bureau of Mines, said the  
air sample taken inside the mine  
indicated no oxygen was availa-  
ble. He said anyone who attempted  
the dash would meet almost cer-  
tain death.

**MEAT PLANT**  
The trouble with you fellows  
is that you're acting like they were  
dead and you're just doing a sal-  
vage operation," Charles Dev  
said.  
Stubblefield said he and the two  
lost men had been exploring the  
mine most of the week with Ken-  
nedy, E. H. Hixson, a geologist.  
They found "hot" uranium rock  
with Geiger counters. Stubblefield  
said, and the three decided to con-  
tinue the exploration with oxygen  
equipment and to go to the help  
if they failed to return within a  
reasonable amount of time.

Explorers to  
See Film of  
Portugal

Members of the local Explorers  
club will be taken on a trip through  
Portugal Monday night, September  
22, says he would rather return to  
life and Merit badges must ap-  
pear before the Board of Review  
in order to be eligible to receive  
their awards at the next Count of  
Honor.  
Haskell Jones, Advancement  
chairman says that all Scouts  
must have their scores on cards  
signed by their Scoutmaster and  
appear before the Board of Review  
before the Board of Review in  
order to be eligible to receive  
their awards at the next Count of  
Honor.

Peron Forces  
Claim Revolt  
Is Put Down

By SAM SUMMERLIN  
BUENOS AIRES (AP) — Forces  
loyal to President Juan D. Peron  
struck back savagely today in an  
attempt to put down the bloody re-  
bellion of his nine-year reign.  
The fighting erupted yesterday  
on land, sea and in the air and  
swirled swiftly to scattered parts  
of the country.  
After some 24 hours of seaway  
action, the loyalist forces ap-  
peared to have grabbed the upper  
hand. But it was still too early to  
forecast the outcome.  
The revolt was launched by re-  
grouped and augmented dissident  
of the armed forces who touched  
off the unsuccessful attempt to  
overthrow Peron June 16.  
Last night the rebels claimed  
they were in control of much of  
south Argentina and the strategic  
Cordoba Province in the center of  
the country about 400 miles north-  
west of Buenos Aires.  
Lashing out in the pre-dawn  
hours today, troops loyal to Peron  
crushed two rebel strongholds. A  
government radio broadcast said:  
"Important news: The forces of  
order, which are advancing, have  
rebel centers continue to progress  
toward the support of military avia-  
tion."  
Mrs. Peron, who was in the  
city, was reported to have been  
informed of the situation by a  
military officer. She was reported  
to be in good health and was  
expected to leave the city today.
